Subject: For Review by 6/18: presentation (for OA internal mtg) on ORD approaches to identify high Pb risk locations
Attachments: ORD_Pb_HighRiskAreas_06-11-18_DRAFTINTERNAL_v2.pptx

Hi Tim, Annette, Jay,

Please see attached slides and email below for context. Hayley Hughes (EPA national Pb coordinator) invited me to present on ORD's ongoing and planned approaches for identifying high Pb risk areas. **Ex. 5 Deliberative Process (DP)**. This is part of a lean mgmt project she has discussed with with OA.

I need to send the presentation to Hayley before my **Ex. 6 Personal Privacy (PP)** so am sending you these slides for review as needed by 6/18. I incorporated review comments from Lindsay and also input from Jim Xue, Mike Tornero, Annie Neale. Do you think IOAA will want to review also? if so, would you like to forward to Bruce/Jennifer or should I?

Thanks,
Valerie

Subject: Update on EPA coordination on identifying high Pb risk locations

FYI - sent our draft table as requested by Hayley Hughes, the EPA national Pb coordinator in OA. She set up a small 5 hr mtg 6/19 & 7/9 to discuss coordination of Pb mapping tools & modeling approaches to identify high risk areas including me, Charles Lee/OEJ, Amanda Hauff/OCSPP and inviting some regional reps working on Pb risk indices/mapping (see below). I am developing slides for that to present ORD's ongoing & planned efforts in this area that I will share for NERL & Bruce review next week. Let me know if any questions.

Subject: draft table of approaches for identifying high Pb risk locations

Hello Amanda and Charles,

Attached is the latest version of the table we had discussed a few months ago (with OCHP/Michael Firestone & several others involved in the Federal Lead Strategy). It is intended to summarize the tools for identifying high Pb risk areas, to gain a common understanding and help foster dialogue on next steps. So far it includes a few illustrative examples with the info filled in for EJSCREEN (thanks to Charles & Tai Lung) and ORD's Schultz et al. 2017 paper. Let me know if you have questions.

Ex. 5 Deliberative Process (DP)

I defer to Hayley as EPA's National Lead Coordinator on how she would like to proceed. Looking forward to discussions at the 6/19 meeting!

Valerie

Subject: Hold the Date: Pb Mapping Tools Project Meeting

When: Tuesday, June 19, 2018 12:30 PM-5:30 PM (UTC-05:00) Eastern Time (US & Canada).

Where: TBD

Hello Charles, Valerie, and Amanda,

Please hold the date for a virtual meeting and discussion about tools currently being used to assess lead (Pb) target areas Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

I have recently met with all of you and all of you mentioned having a meeting to bring us all together. Charles has graciously volunteered to find us a meeting room and I will provide an updated invite and agenda once we determine a meeting location.

The focus of this meeting is to learn about the tools as a group and then determine the way forward...yes, this will require performance measures. I also want to keep this group small but if there are others in your group that you would like to invite to add to the discussion, please let me know.

Charles, please let me know which Regional Pb POCs should be invited as presenters (1, 3, 5, 9?) and also if you have POCs for the other regions so I can add a representative from each region to join us.

Looking forward to meeting with you.

Hayley
